INTRODUCING THE NEW ECLIPSE MINI //

The world-renowned Eclipse digital label finishing machines are key to creating a stunning finish to your printed labels in a fraction of the time it takes to order and wait for cutting dies to arrive. Never again will you need to keep rolls of redundant pre-cut label shapes on the shelf.

Fantastic value for money, this competitively priced label finishing machine has a compact footprint. Designed to harmonise and increase the flexibility of label production from a range of ultra-narrow web label printers.

Accurate, fast, economical! The Eclipse MINI digital die cutter and laminator is a production power-house in complete label converting and finishing. Self-wound lamination option, digital cutting with industry leading output rates (graphic dependant), roll to re-roll, slitting stations x 2 slitter blades and matrix stripping as standard. With the ability to cut plain or printed media with the single point registration system, the MINI is a full production solution in a desktop package. Precision engineering is the benchmark of the MINI and its manufacture quality and unique firmware delivers far in excess of comparable machines in the market today. 200mm o/d rolls x 115mm web width makes the MINI a perfect solution for continuous finishing to a wide range of medias like BOPP, polyester, paper, vinyls and more. The MINI is designed, engineered and built to a specification the printing community needed. Bringing affordable label finishing options to the micro label users of today.

BENEFITS //

Cut any size/shape labels on demand without using dies - no need for stock holding

Works with most desktop printers to create a full digital label solution

Simple loading and unloading

Easy to use control panel

Compact size

TECHNICAL SPECIFICATIONS //

▷ Cut Width: **112mm (4.4")**

▷ Cut Speed: **800mm (31.5") axial maximum**

▷ Linear Cut Speed: **Dependent on graphic**

▷ Cut Force: **0 - 400 grams in 1 gram steps**

▷ Cut Type: **Drag knife and tangential emulation**

▷ Cut To Registration: **Single point registration mark**

▷ Cut Ability: **Both printed and unprinted media**

▷ Max Label Length: **304.8mm (12") repeat**

▷ Lamination: **Unsupported laminate roll**

▷ Maximum Roll Diameter: **200mm (7.9")**

▷ Waste Matrix: **Removal and rewind**

▷ Roll Core Size: **76mm (3")**

▷ Interface & Software: **WinPlot (Windows OS) cut software, cutter control parameter software. Plug-ins for CorelDraw and Adobe Illustrator.**

▷ Power Supply: **Single phase 110/240VAC, frequency 50/60HZ**

▷ Dimensions: **Width: 860mm (33.8"), Depth: 520mm (20.5"), Height: 575mm (22.6")**

▷ Weight: **75kg**

▷ Impression Technology Europe are the designers and manufacturers of the Eclipse Mini.

▷ Designed and built in Mansfield, North Nottinghamshire, England.

▷ The Eclipse Mini offers a unique narrow web Label finishing solution.

▷ Outline cut and finishing of Self Adhisive label media.

▷ Offers Lamination, Label outline cutting.

▷ Waste matrix striping.

▷ Media slitting to desired width.

▷ Rewinding ready to use labels.

▷ No need to stock blank label shapes.

▷ No redundant label stock on the shelf.

▷ With the Epson C7500 series the ability to print, and cut, any label shape in minutes.

▷ Small footprint desk top finishing system.

▷ Low cost label production.

▷ We offer a fully supportive distributor training service which can be web linked or one-to-one

▷ Telephone, email, web, technical support.

▷ Fully documented service support documentation.

▷ System available for Epson Colourworks resellers.
